WILL SOON KNOW BEATTIE'S FATE

(By Associated Press.)

Chesterfield C. H., Sept. 8—When the sun rose today over the gabels of the historic prison in which Henry Clay Beattie, Jr., is confined on the charge of having killed his beautiful young wife, there was every probability that before the sun sank in the west the prisoner would know his fate.

"I expect the case to go to the jury before night," said Judge Watson, "but this cannot be accurately foretold as the arguments of the attorneys were not limited to any set time."

The arguments of Attorney Harry Smith for the defense and Attorney Wendenburg for the opposition will involve all the finer points of law. Mr. Smith in his opening remarks to the jury battered away at the purchase of the gun by Paul Beattie and also the alleged confession the prisoner is said to have made to his cousin Paul.

Prosecutor Wendenburg took notes of Smith's address. The prisoner was clad in a light suit and sat beside his attorneys helping them in every way possible.

Attorney Smith stated to the jury that "after the masterful address and indisputable argument of Attorney Hill Carter it will be unnecessary for me to detain you for any great length of time. We do not anticipate nor do we fear a conviction."

Mr. Smith recalled the Kestleburg incident as an instance of the danger of convicting a prisoner upon circumstantial evidence.

Special Prosecutor Wenderberg this afternoon started the final argument for the state. He said that he would conclude about five o'clock and believed that the jury would get the case at that time.

"Within an hour I am confident a verdict of guilty will be returned," he said.

MONEY TRUST IS GREATEST EVIL

(By United Press.)

Boston, Mass., Sept. 8—That the money trust is the most insidious and dangerous menace to the industrial life of America was the statement made to the United Press today by Louis D. Brandeis, famous counsel in the Ballinger-Pinchot controversy.

"No one familiar with the operation of big business can doubt that the conditions expressed under the term "money trust" constitute the most serious problem of the day," said Mr. Brandeis.

"This control exercised by a few men in the financial world is more dangerous because more extensive and more subtle than exercised by the great industrial trusts like the Standard Oil and the Tobacco trusts. Powerful as the great industrial trusts are it it possible to curb them but unless ways are found for curbing the ever financial control exercised by the few men it will prove impossible to protect our industrial and political liberty."

IMPALED ON HOOK

To be impaled on a hook that lodged securely under his chin was the unpleasant experience that befell Frank Baggs, Jr., at the home of his parents on Grant street the other evening. That he was not seriously injured is due to the fact that the rope which held the hook broke when the lad's weight went against it.

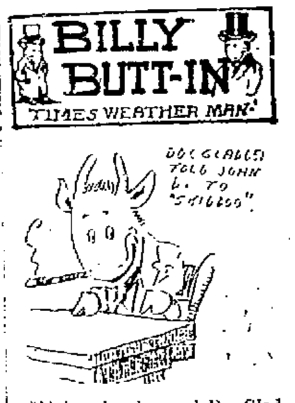

Mr. Baggs had rigged up a place in the shed where his son could hang his bicycle. When not in use the hooks were thrown over a rafter. Young Baggs thought to hang up his wheel, and it was necessary for him to stand on a box to reach the hooks. Just as he had loosened the hooks, the box slipped and he fell, one hook catching him fairly under the chin and cutting quite a gash. Fortunately the rope broke and the hook did not completely penetrate to the roof of the mouth. It was a bad wound at that and Dr. Albert Berndt was summoned to dress the injury. Young Baggs is a plucky little fellow and did not even remain away from school.

C. & O. OFFICIALS PLAN FOR THE COMING YEAR

Columbus, O., Sept. 8—Decatur Axtell, vice president of the Chesapeake and Ohio and the Hocking Valley Railroads, was in Columbus yesterday morning and accompanied by General Manager Connors and Chief Engineer Michels made an inspection of the lines of the Hocking Valley, with a view to determining the expenditures necessary for the coming year.

Vice President Axtell arrived in Columbus early and inspected the work being done at the new through freight yards in South Columbus and the local terminals and locomotive repair shops. Then, accompanied by the local officials, he went in a special train to Logan to look over the shops there, where considerable work is being done and also to inspect the double tracking south of Nelsonville and the yards in Nelsonville. The party returned to Columbus in the afternoon and then went to Toledo to look over the terminals there and inspect the site of the new coal docks to be erected probably next year.

Even with the injunction now tying up all big improvements on the Hocking Valley there will be considerable work done the coming year and on the result of this inspection trip and the conference with General Manager Connors and Chief Engineer Michels will depend the amount of appropriations which Vice President Axtell will recommend. Were the company clear to take up its complete program the appropriations would run up into the millions of dollars, but as it is they will be limited to the amounts which can be taken out of earnings. The completion of the South Columbus terminals, the new coal docks in Toledo, new equipment and new rails will be the largest items probably in the new budget.

The extension of the road south from Jackson to the Ohio river must await the settlements of the suits, as also must extensive improvements contemplated for the Columbus terminals. It is probable that some additional double tracking will be done the coming year but this will be limited by the amount of money which may be spared. If the new capitalization of the company could be completed the road would be double-tracked from the river to Toledo as rapidly as the work could be completed.

OBITUARY

M. J. Burns

At 2:40 o'clock Thursday afternoon, Michael J. Burns, son of Michael Burns, of near Lucasville, died at a hospital in Columbus, from injuries received about three weeks ago, while working on his automobile in the Capital city.

The remains will be taken to Lucasville at 11 o'clock Saturday morning and brought to this city Monday morning, about 10 o'clock, for burial.

No news has been received with more genuine sorrow in Lucasville than the death of Mr. Burns, who is well known throughout the county as a splendid young business man. He was born in Scioto county thirty four years ago and was the son of one of the most prominent farmers of the county.

He attended the public schools of Lucasville, but later went to Memphis, Tenn., to attend business college. Six years ago he left the home place at Lucasville and went to Columbus, where he has been employed as contractor for the Street Railway company.

He started out for himself when he was only 20 years old. He was singularly successful in all his undertakings, and it is said he never made a mistake in figuring on a contract, and without a loss acquired a fortune of about $10,000. He was a member of the Knights of Columbus and the Modern Woodmen orders.

Always upright and honest in all his business dealings, he gathered around him a circle of friends who will sincerely mourn his sudden death.

Three weeks ago Mr. Burns ran his machine into the garage, and in doing so bent the fender. He was using a scantling to straighten it when the wood broke and threw him on his head. He struck with violent force against the cement floor, but his condition was not thought to be serious until last Sunday, when he was taken to a hospital and his family summoned. His mother and sister, Miss Lyda, of Lucasville, went at once to his bedside and were with him when the end came. His brother, Andrew, who lives in Columbus, was also with him.

His death makes the second son the family has lost this year.

Mr. Burns is survived by his parents, two sisters, Misses Maggie and Lydia at home, Andrew of Columbus, and Mrs. Mary Williams of McDermott.

The funeral services will take place Monday morning at 10 o'clock from Holy Redeemer, with interment at Greenlawn.

State House Talk

Columbus, O., Sept. 8.—It has been the proud boast of Mayor George S. Marshall, the nominee of the Republicans, and of Geo. J. Karb, nominee of the Democrats, in the mayoralty contest of Tuesday, that they have yet to suffer defeat in a contest for public office. Marshall has been councilman, city solicitor and mayor, while Karb has been sheriff twice and mayor twice. Either one will lose his record of unbroken victories at the November election. Both men are strong, exceedingly popular and the contest will be a hard fought out one.

Dr. P. P. Claxton, United States Commissioner of Education, held a conference with State School Commissioner Frank W. Miller Wednesday afternoon. They discussed the proposition of interstate recognition of teachers' certificates. It is proposed to bring this about by the standardization of a certificate for use in all states. Some states exchange certificates with each other. Dr. Claxton was appointed to his present position last June. He was at the head of the educational department of the Tennessee University at Knoxville, and is the leading educator of the South.

A week from next Monday, Senator Isaac E. Huffman will be placed on trial for alleged bribery, before Judge Thomas M. Bigger. He will be the first of the indicted senators to be tried. Huffman is a lawyer and is one of the shrewdest members of the legislature. He has been connected with that body for ten years and is now on his third term as senator. He served two terms in the lower house. He will be defended by the same attorneys employed by the defense in the Diegle trial. The case will no doubt be as hotly contested as any that have been tried yet.

Superintendent J. W. Jones, of the state school for the deaf, who has been reappointed by the Ohio board of administration, has had a remarkable record in caring for the health of the children in his charge. The enrollment at the institution is more than 500, and the death rate is only one-tenth of that of Columbus. There has not been a death at the institution since a year ago last April. At one time, a period of five and a half years passed before a death occurred. At another time, there was not a death for three years.

Governor Harmon Wednesday evening settled a warm contest over the appointment of a successor to Common Pleas Judge C. S. Reed, of Erie county, resigned, by selecting Scott Stahl, of Port Clinton, to fill the vacancy. Representative C. B. Winters, of Sandusky, and Attorney John McCrystal, of Sandusky, were backed by rival Democratic factions for the position. Judge Reed is a Republican and leaves the bench to practice law in Cleveland. Stahl is a Democrat. Governor Harmon tendered the appointment to Judge George S. Reis, of Sandusky, but the latter, not wishing to give up a practice paying more than the salary of the judgeship declined.

Each of the four candidates for trustee in Plain township, Franklin county, received 52 votes. There is one disputed ballot which was not counted, and the action of the county election board on this will determine who was nominated.

Before sunset tomorrow, Rodney J. Diegle, sergeant-at-arms of the senate, convicted two months ago of being a go-between in legislative bribery transactions, may be a felon in the Ohio penitentiary. At 9 o'clock Saturday morning, he is to appear before Judge E. B. Kinkead for sentence. No further confession is expected from Diegle, and the partial one he has already made will gain for him no clemency. While, of course, it cannot be told in advance what the sentence of the court will be, it will occasion no surprise if Judge Kinkead metes out to him the extreme penalty of the law, which is five years' imprisonment and a fine of $700.

Diegle's attorneys will probably appeal to the circuit court for a stay of execution, but this will not keep Diegle out of the penitentiary unless the court takes up the application at once, or unless Judge Kinkead grants a stay. The prevailing opinion is that Diegle will be confined in the Ohio penitentiary before [illegible] Saturday.

"We have dismissed Diegle from our minds," said Attorney General Hogan Thursday evening, in reply to a question concerning Diegle's whereabouts and whether the state's attorneys had been advised as to when he would reach the city. "We are done with Diegle," continued the general, "and his case is now in the hands of the court for such consideration as is deemed warrantable to take."

Columbus undertakers are kicking because of a ruling of the attorney general which cuts them out of a form of petty graft in the disposition of bodies of deceased indigent persons or those of unknown persons, which are unclaimed. The ruling of the attorney general was that these bodies should be turned over to medical societies or colleges for purposes of anatomical research. Heretofore, the undertakers have been taking charge of these bodies and collecting a fat fee from the city and county for burying them. The medical societies and colleges, as a result of this practice, have been obliged to have the bodies exhumed in order to get them. Under the ruling, the bodies will not go to the undertakers, but will be turned over direct to the medical societies and colleges. The undertakers naturally are dissatisfied because of being forced to give the societies and colleges the first opportunity to get the bodies.

H. T. Hatton is to remodel and improve the old Harmonica rink building within the next few weeks. Among the improvements will be an entire new roof. The improvements which are to be put on the building have given rise to the old rumor that a moving picture show was to be conducted in the place. Mr. Hatton, however, states that he has not yet decided what he will do with the place. It will probably be used again for a skating rink.

Charles McCoy, who is erecting a grocery building on the corner of Nineteenth and Timmonds avenue, expects to move into his new building on Oct. 1.

S. P. Manley, who recently purchased Charley Wertz's property on East Eighth street, will erect a fine work shop in the rear of his new home. Mr. Manley is a contracting painter and always has plenty to do.

Work on the new High School building is being rushed, over 100 men being employed on the construction work at the present time. The basement is about completed.

Citizens Urged To Keep City Clean

The board of health, at its regular session Thursday afternoon, created the office of health officer, appointment of the city physician, and passed a resolution requesting the citizens of the city to cut weeds and clean up about their premises in general. The resolution also embodied a clause directed to city officials urging them to make a special effort toward putting the city in better sanitary condition.

It was pointed out that weeds allowed to die and become decayed are more dangerous to the public health in general.

The present epidemic of scarlet fever and diphtheria was discussed and more stringent measures are to be resorted to.

In this connection City Physician Dr. McKerrihan stated that the chief trouble is that people are ignoring the health regulations and failing to report mild attacks of scarlet fever and other contagious.

The matter of people violating the quarantine regulations was brought up, and it was the unanimous opinion of the board that penalties must be inflicted for violations.

On motion, Harry A. Krauss, city bacteriologist, was instructed for the next month to make any and all bacterial tests which physicians may send, free of charge. For the extra service Mr. Krauss will receive $1.00 for each test.

The milk inspector stated he had good proof that a number of scarlet fever cases originated by the use of milk from a certain dairy, the disease being communicated by a person infected with the disease milking cows. The matter will be more fully investigated.

The condition of the Sunday tabernacle, resulting from the damp, mouldy and other smarres, came in for a brief discussion. It develops that the tabernacle is now undergoing a complete cleaning up.

The action of the board in creating the office of health officer was made because, in the opinion of the board, the duties of city physician and health officer combined were becoming too arduous.

Dr. Fetter was delegated to go before council and ask for an appropriation of $1,000 to pay the salary of the new officer to be appointed and an increase of $10 per month granted to Sanitary Officer Frank Swintski as a reward for his faithful and diligent work, and in view of the increased territory which he now has.

The board granted the request of some 25 petitioners living on East Fifth street and vicinity, who entered a strong protest against the condition created in the neighborhood by the ponds of stagnant water. The clerk was instructed to notify the owner to abate the nuisance.

The schedule, amounting to $201.52 was allowed and ordered paid.

Sanitary Officer Frank Switalski's report for the month was as follows: Buried 14 dead dogs; 7 horses and one cow; issued 28 notices to abate nuisances and disinfected 28 houses for contagious disease. He reported the city in general as being in a fair sanitary condition.

Health Officer Dr. McKerrihan reported a total of 13 cases of contagious and infectious diseases for August—diphtheria 28 and scarlet fever 15 cases, and the mortality three, due to diphtheria.

The total mortality in the city for the month was 34, 17 males and 17 females; 29 whites and 15 blacks.

WHY NOT HAVE STRONG NERVES?

Nervous Debility Is Preventable and Curable as This Ohio Case Proves.

Mrs. G. E. Neu, of No. 501 Oak street, Elmwood Place, Ohio, was led to try Dr. Williams' Pink Pills for Pale People by her husband after being in a nervous and run-down condition for over two years. She says:

"It was quite a good while before I was aware that I was suffering from nervous debility for I have always had a strong constitution. Through worry and loss of sleep due to the sickness of my children, I began to notice that I was getting nervous and was always tired. I got so that I would fly to pieces over any excitement and could not bear any noise, even that made by the children in playing. I had constant headaches back of my eyes and quite often was dizzy. My hands and feet were always cold and neither friction nor heat would warm them. I had no appetite and could not go upstairs without stopping to rest.

"I was complaining for over two years and often called in the doctor but he didn't help me. My husband had taken Dr. Williams' Pink Pills for Pale People some years before and was constantly urging me to try them. Finally to please him I consented to give the pills a trial. Before I had taken many boxes I felt better and then was only too glad to continue using them. I soon noticed that I could go upstairs without stopping for breath and that my hands and feet were warm. When my friends would ask me what I was taking I never lost a chance to praise Dr. Williams' Pink Pills for Pale People. The pills restored my health and I wonder how any one suffering from a blood or nervous disease, can neglect to take them. I hope my experience with Dr. Williams' Pink Pills may induce others to give them a trial."

Dr. Williams' Pink Pills for Pale People are useful in a wide range of diseases of the blood and nerves such as rheumatism, after-effects of the grip and fevers, neuralgia, nervous debility, St. Vitus' dance and even partial paralysis and locomotor ataxia.

Dr. Williams' Pink Pills are for sale by all druggists, or will be sent, postpaid, on receipt of price, 50 cents per box; six boxes for $2.50, by the Dr. Williams Medicine Co., Schenectady, N. Y. Write for a free copy of our "Diseases of the Nervous System."

MR. PATTERSON TO RESIGN AS CLERK

Thomas C. Patterson, county auditor-elect, who will take his office within the next few weeks, stated Thursday that he had practically made up his mind to resign his office as clerk of the Modern Woodman camp of this city, a position he has filled acceptably for the past thirteen years, and during which time he has rarely, if ever, had opposition for re-election. He believes that his duties as county auditor will require all of his time and attention, hence his action in refusing the office longer. While he will resign as clerk, he nevertheless expects to take an active interest in the welfare of the order and can always be counted upon as one of the old standbys.

Stacey May Be Given Chance to Square Up

Shad Stacey, news of whose arrest for embezzling $60 from Portsmouth lodge of Odd Fellows, created a big sensation here, was brought back to Portsmouth from Cincinnati by Sheriff John Eckhart, Thursday night.

Friends of the accused man believing him to be merely a victim of circumstances, are rallying to his support. A number of the lodge officers and members, including 'Squire John Byron, before whom the charges were preferred, called at t he city prison early Friday to see him. Stacey showed much feeling as he came face to face with the callers. He tearfully acknowledged he had made a mistake in carelessly entrusting the lodge funds to others and going away in such haste. He had turned over $64, he said, to an N. & W. man named Wilson, of West Eleventh street, to give to Dallas Lemon, the district deputy. Wilson took the money with him in making a run to Wayne, W. Va., intending to hunt up Lemon on his return, but lost the money.

'Squire Byron said Friday that there would be no hearing of the case, as Stacey assured the lodge officers he would be able to make good the amount lost. The 'Squire voiced the sentiment of the lodge officers when he said they were not inclined to be revengeful and would give Stacey the chance of squaring matters.

This will be done out of court, and probably there will be no prosecution. All feel sorry for the young man and feel he is innocent of any intentional dishonesty. The amount is said to have been mainly money Sciotoville lodge had paid to the Portsmouth lodge for the care of sick members. The local lodge had paid the weekly benefits of the sick patients, and after their discharge Sciotoville lodge promptly remitted the full amount to Stacey.

He at the time resided at Eighth and Prospect streets, only two squares distant from the home of Charles Rice, the presiding officer of Portsmouth lodge, and it was regarded as strange that he did not turn the money over to him. Stacey also knew where Treasurer Charles Wiget and other officers lived, so that his failure to turn over the money to them caused them to suspect something was wrong.

It was learned Friday that Stacey had also failed to account for a few other minor financial transactions, amounting to several or more dollars, and it is likely that a committee will be appointed at the next meeting of the lodge to audit his books and accounts. Stacey had been recording secretary for the past t wo years.

Stacey's family accompanied him to Cincinnati, and were he to be prosecuted, it would prove a sad blow to them, as he has just accepted the general agency in Cincinnati for a big insurance company.

In A Quandary Over Self Accused Killer

Prosecuting Attorney Horace Small has as yet heard nothing more from the Abilene, Kansas, authorities regarding Felix Crabb, the self-confessed murderer now a patient in Hempstead hospital. Mr. Small wrote to the Kansas officials, giving a full account of the crime Crabb confessed to having committed there twelve years ago.

Health Officer Dr. S. B. McKerrihan has about concluded to discharge Crabb from the hospital, as he has been unable to find that the man is suffering with any ailment of a serious nature.

Instead it went clear over and Dan landed in a heap on the floor, which he struck so violently that he was barely able to arise.

A QUICK LOAN

THE best backing that any business can boast is a large and satisfied clientele. Without this asset no business can prosper, with it the gateway to success is ever open. It takes years of painstaking effort for any firm to establish such a clientele. This company is larger by far than any other local concern. In fact, statistics show it to be one of the largest in the United States. The best evidence of our fairness during the past 20 years is attested by our phenomenal growth.

This concern is a business institution in the highest sense and of the highest order. Its policy is based upon the soundest business principles, therefore it is patronized by more people than is any other.

WETS GIVE THEIR CASE DEAD AWAY

In an article headed, "The Saloon and the Boy," printed in Thursday's Times and which, for all we know may be printed in today's Blade, the Business Men's League of Scioto County seeks to show that the saloon is not the principal cause of the development in boys of their criminal instincts.

The article in question is introduced in this way, "The following article is copied from one of our leading magazines of recent date."

Why was not this magazine named? Was it a saloon-boosting magazine?

Slipped a Cog.

However, the article fails entirely to clear the saloon of the guilt of fostering the boy's criminal instincts. Someone at wet headquarters slipped a cog when he gave it out to the newspapers.

For the sake or argument we might grant the writer's contention that the saloon and intoxicants start but a small proportion of boys on a career of vice and crime.

But it would still remain for us to inquire, "What about the effect of saloons and drink upon the development of the boy's career in vice and crime?"

Here is where we repeat the sentence which heads this article: "Wets give their case away;" and we back the statement up with this quotation from the article printed yesterday:

Self Convicted.

"Bad as are the influences of saloon and liquor on a boy after he has entered the rocky path of criminal conduct, not one boy in ten is first set with his face toward the penitentiary walls by these facts." * * * After the ungoverned, unsympathetic home surroundings have given the boy the initiative of being as ill-tempered, lawless or immoral as his parents are, **then later in his life drink habits,** licentiousness, gambling * * * round him out for the garments that are striped * * * Five hundred and seventy-four (prisoners) stated (to prison reformers) that * * * the saloon did not begin to influence their conduct until they had got into their first trouble at home or with the law, *** **The opinion was unanimous that after failing to find companionship in the home, then drifted to the bright lights; the free food, the warmth and careless if not worse companionship to be found in the saloon."**

The Drunken Father.

The wet apology for saloons which we are here replying to seeks to fasten upon uninviting homes and unsympathetic parents the boy's beginnings in crime. On this score the apology after stating that 3,963 criminals in their replies to inquiries had stated that "they never felt they knew their father; that he was bossy and indifferent." **"The usual stories of drunken or lazy or brutal fathers appeared" is added.**

First, then, the apology gives the whole wet case away by conceding that bad boys soon drift into the harmful saloon. And in the next proceeding sentence

Shall Scioto county oil the to-case away by the concession that in those uninviting homes **there were drunken and brutal fathers.**

Scioto's Lesson.

Thus in an argument intended to shield the saloon we find two overwhelming reasons why Scioto county should keep them down and out; one reason bearing upon the salvation of the boy, and the other upon the salvation of the boy's father.

Could any dry put more convincingly the solemn duty that rests upon society than this wet writer has done? Could he show any more forcibly that the saloon strikes at both father and son? The admission as to the "drunken and brutal father" is exceedingly eloquent. What insight it gives us into the home of the boy with criminal tendencies.

Save the Boy.

Shall Scioto county oil the toboggan on which her bad boys embark for the downward course by ordering the saloons back to tempt them? Shall this county concern itself merely with the years in his life which mark the beginnings of his degeneracy, or shall it safeguard the good that is in him up through the later years, by keeping the saloon out of his pathway—the saloon with its "bright lights, its careless if not worse companionship," its power to form his "drink habits which round him out for the garments that are striped?"

Eloquence Doesn't Flow.

The drys have always contended that no apology for the saloon looks well in print and "The Saloon and the Boy" proves the contention. The wets depend mostly upon the "almighty dollar" argument and the "personal liberty" argument. These used to have a good deal of force in Ohio, but time and truth have worn them thin. The facts and the arguments are all on the other side. The saloon can be eloquent, but what lights of convincing oratory can the saloon apologist take? And, where, by the way, is he to find audiences made up of the best people of the land, the mothers, sisters and sweethearts, such a one as that which gathered at Billy Sunday Tabernacle last Sunday.

Miss [illegible] and [illegible] and Miss Yerkes, an enthusiastic girl student of domestic science at Ohio State University, are the sponsers of the enterprise. And the experience which the Eastern college girl and the one of the middle West brings to the undertaking seems to assure its success. Originality has set its mark upon the effort at the outset, for the name, "Sign of the Samovar," is striking in its euphony and clever in its significance. What is more to the point of a hungry man or woman at the noon hour, it fills a practical need in Columbus. There are scores of cafes and numerous clubs in the downtown district, but, like every other department of business or life, there is always more room at the top than at the bottom, if merit, perseverance, tact and wisdom to direct are the chief assets of those who manage it. The Portsmouth Savings & Loan Company, in the Opera House Building, have a splendid plan for borrowers, a plan whereby they reduce the principal each six months for the borrower and the payments may be made monthly if so desired. This plan is worth investigating.

Lady Visitor Had A Strenuous Time

Mrs. C. B. Stevens, who arrived here from Pittsburg last night to join her husband who is installing boilers in the new high school building, believes that it is better to be born lucky than rich.

Mrs. Stevens wrote to her husband stating that she would arrive here Friday night. She later sent him a special delivery saying that she would come on Thursday evening. When she reached Portsmouth Mr. Stevens was not at the station to meet her not having received the second letter.

She left her suit case at a drug store near the station and remembering that she had once received a letter written on The Grimes hotel stationery, she made her way to that place.

Not finding her husband there she related to Landlord Shumate her story and he advised her to remain at the Grimes until he could locate Mr. Stevens for her. Mr. Shumate started with her to the drug store to get her suit case. In going out Gay street Mrs. Stevens picked up a handkerchief and then burst into tears.

She then told Mr. Shumate that it was her own and she had lost it while on her way to the hotel. It contained $12 in paper money all she had, but she thought if she told Mr. Shumate that she had lost it he would believe she was an imposter.

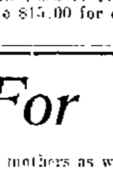

Mr. Stevens was located this morning without any trouble and the wife now expects to enjoy her visit to the Peerless City.

No Wonder That The Diseases Are Spread

Health Officer Dr. S. B. McKer-glinn personally discovered a new case of contagion Friday that had not been reported to the health department.

The patient is Etta, a young daughter of Henry Wallace, of No. 1115 Gay street. She had scarlet fever for a week, but no physician was called to attend her and quite a number of children have been exposed.

The report that an infected child had attended school at the Campbell avenue building proved true. Myrtle, aged 14, a daughter of Frank Brown, of East Fifth street, was the child, but she was promptly sent back home and the class room fumigated. Alice Brown, a diphtheria patient at the J. W. Graham home, No. 149 West Fourth street, was discharged Friday.

BOYS PLAY INDIAN, AND ONE IS CUT BY SCALPING KNIFE

While playing with a crowd of boys on the Gallia pike near Kendall avenue, early Friday morning, Walker Cummings had his right foot slashed by a knife in the hands of a companion. The boys had been playing "Indian," and Cummings was accidently slashed by one of his playmates, who yelled that he was going to scalp him.

Cummings was taken to his home on Kendall avenue, where it was found that the gash was not deep, and no further trouble is anticipated.

Say Work Will Start Soon On Huge Dam

Announcement in Thursday's Times that one of the $1,000,000 dams to be constructed in the Ohio river would be located less than four miles west of Portsmouth, created much comment last night.

According to a rumor prevalent today, work will begin in less than 60 days. It will be recalled that six government surveyors spent several weeks in the vicinity of Firebrick, Ky., seking a suitable site for the bridge. The river bed above this place is said to be unusually firm and substantial.

THEATRICAL

The Lewis Comedy Company opened a three days' engagement at the Sun theatre Thursday evening to two splendid audiences. The company includes six pretty and vivacious girls, one good male singer, Mr. Dickenson, and a clever comedian. A number of new songs were rendered effectively, and J. Y. Lewis' monologue was a corker. He is also a very nifty dancer, and his rube character is a hit. The performance was closed with a merry skit called "The Two Fools," which was certainly filled with action. The company has a lot of pretty scenery and costumes, and gave a very creditable show. One of the comedians is a new acquisition to the stage and he showed it in his every move. He was the only broken rog in the wheel of fun and hilarity.

Reis' minstrel troupe will come to the Sun theatre the first half of next week. It is one of the best drawing cards on the Sun circuit and Manager Lee is anticipating record breaking business, as he played the attraction at Marion, Ohio.

Lake Drained.

The lake of water which has been in the old athletic park, has finally been drained off. Residents of that section had been protesting for the past weeks. It is probable that the upper dam will have to be removed, as the removal of the lower dam has failed to prevent large pools of water collecting in the place.

"Cat" Fight Is Settled

Mrs. Margaret Shaw and Mrs. Nancy Ratcliff, who fell out over a cat and caused quite an uproar in the North End Thursday have buried the hatchet. Both women promised the police they would have no more trouble. Mrs. Ratcliff denied that she had pointed a gun at the other woman. She merely laid hands on a shot gun to scare a crowd of curious out of her yard.

Second Boy Has Arrived

Pharmacist Henry Wiggins estimates his wealth has increased by a round ten thousand since last noon today. S.S.S. FOR RHEUMATISM

The usual cause of Rheumatism is an excess of uric acid in the blood which weakens and acidifies this vital fluid, and prevents the proper amount of nourishment being afforded the muscles, nerves and tendons. The pains and aches of Rheumatism may be temporarily relieved by the use of liniments, hot applications, and other external treatments, but the disease cannot be permanently benefited by such measures, and is bound to become chronic and dangerous if such things are depended upon alone. *S.S.S.* cures Rheumatism in the only way it is possible to cure the disease. It goes down into the blood and removes the uric acid from the circulation so that the tissues, bones, muscles and joints are all lubricated and fed with nourished matter instead of being constantly irritated and inflamed with the sharp, acrid impurity. When *S.S.S.* has cleansed and purified the blood the pains and aches cease, all inflammation disappears, strained muscles are made supple, and every symptom of Rheumatism fades away. Book on Rheumatism and medical advice free to all. *S.S.S.* is for sale at drug stores.

UNITED STATES REVENUE

Some Interesting Figures Gleaned in This District.

FISCAL YEARS COMPARED.

BIG INCREASE IN RECEIPTS FOR YEAR ENDING JUNE 30th 1911.

(From the Waverly News, July 13, 1911.)

Interest Revenue receipts of this, the eleventh collection district of Ohio with headquarters in Columbus for the fiscal year ended June 30, show quite a handsome increase over those for the year ended June 30, 1910. The only item to show a decrease was that of tobacco and cigars, while the collections on malt liquors showed that over 30,500 barrels more beer was manufactured in the district in the last fiscal year than in the one preceding it.

The total collections for the fiscal year just ended were $1,178,660.53 as against $1,076,610.07, or a net increase of $102,050.46 for the year. The receipts of the office show that the saloons in the district increased during the year, as from the special tax on dealers in malt and spirituous liquors $61,438.92 was collected, as against $55,402.24, an increase of $6,036.68, showing about 240 more dealers in the last fiscal year than in the one preceding.

Cigars and tobacco in the 28 counties composing this district produced tax to the amount of $369,655.21, as against $385,215.45, a decrease of $15,560.24, showing that manufacture of these goods is falling off. The internal revenue receipts on beer were $493,033.00 against $462,654.63, an increase of $30,438.37, showing that about 30,500 barrels more beer was manufactured than in the preceding year, as the tax on beer is $1 a barrel. Of the 28 counties in the district, only 3, Franklin, Fairfield and Ross, are "wet" counties.

The following news item taken from the Ohio State Journal of Sept. 2nd, 1911, shows that the consumption of liquors is now increasing right at the home of the Ohio State Local Option League:

Revenue Receipts Increase.

The collection of internal revenue for this district for the month of August showed a good increase over those for the corresponding month of last year. The total collections for the month just ended were $93,631.77 against $90,657.33 for August of 1910. The largest gain was in the tax on beer, for which $50,580 were collected last month, against $50,242.50 in August, 1910. As practically all of the beer in the district is brewed in Columbus this shows an increase of over 6300 barrels of beer sold by local breweries last month over the corresponding month of 1910.

Tax on tobacco and cigars was $35,762.95, against $31,835.61 in August of 1910, showing that the manufacture of cigars in the district is again on the increase. Special taxes were $2907.86, against $3493, a loss in this department as well as in the miscellaneous collections, which were $3140.96, against $4486.22. The collections for this district have been showing a steady increase for every month of the present year.

Do we need to give the voters any further evidence that the use of liquors is increasing in "dry" territory?

The Business Men's League of Scioto County.

TROLLEY RIDE A SUCCESS

The trolley ride given by the choir of the First Christian church Thursday evening, was a decided success in every way, fully 400 people availing themselves of the opportunity to take a spin to Sciotoville. On the return trip the jolly crowd spent an hour at beautiful Millbrook, and every one seemed to have a splendid time. The choir realized about $20.00 out of the affair.

The only thing that occurred to mar the pleasantries of the evening, resulted from the actions of several young men in Sciotoville, who threw dust and pebbles into the crowded cars, temporarily blinding a score of people. This incident has been reported to the street railway officials, and they expect to investigate it thoroughly, and if the names of the guilty parties are learned, prosecutions will follow.

LET THE RED SIGNS SHOW YOU THE WAY

THE CLUB GIVEN SPLENDID START

One hundred and seventy-five men and women gathered around exquisitely decorated tables Thursday night to enjoy the official opening of The Club.

It was an occasion that has never been duplicated in the city of Portsmouth, and perhaps never will be. The members of The Club today are receiving congratulations from hundreds of friends who will watch the progress of this organization with no end of interest.

Its members consist of the prominent business men in the city, and no church or creed is especially represented.

As the guests gathered around the festal board last night a stranger was particularly impressed with the personnel of the members. It consisted of a class of men that could be trusted in any place of life, and under their leadership The Club should grow into one of the finest social organizations in the state.

The old church on West Fourth street, which was purchased months ago for the use of The Club, has been made into an ideal club house, from top to bottom it has been fitted up for the amusement of its members.

On entering The Club one is at once impressed with the atmosphere of cheerfulness and comradeship which prevails. Plenty of lights are scattered in effective places. The entrance opens on a hall, and looking through the hall the recreation room is seen. Four up-to-date billiard and pool tables are arranged in the room and two bowling alleys are located at the east end. Both tables and alleys are in the best of shape, and they are to be taken good care of, for the place is at present under the personal supervision of a house committee, one member for each evening in the week.

In the rear of the first floor are located the shower baths and the gymnasium equipment is also stored here until the time comes to install it in the big hall upstairs.

Judging from the big crowd which took possession of the lower floor until the time for the banquet Thursday night, the amusement features there will prove exceedingly popular.

The kitchen equipment is also located in the rear of this floor, and a dumb waiter connects the two floors.

On the second floor is the banquet hall, which will also be used for basket ball and other amusements. It was here, last night, that the ladies who served the elegant repast, worked to make the place particularly attractive, and they succeeded.

Long tables were laden with glass and silver and the entire room was decorated with summer blossoms and trailing vines. Over the doorways and windows the vines were placed, and the effect was that of a summer garden.

The banquet room walls have been decorated in shades of soft brown and buff, and clusters of electric lights are suspended from the ceiling, throwing a brilliant light to every corner of the room.

Over the opening of the banquet room is a mezzanine, where last night was seated Prof. Bode's orchestra, which throughout the serving of the banquet rendered many popular selections.

At the rear of the hall General Jacob H. Smith, who is the popular president of The Club, had placed his famous and very handsome flag which was made in China. It is of silk and measures 28 by 14, and each star is embroidered exactly alike on both sides.

It was almost 7 o'clock when President Smith rapped for order in the big banquet hall, and in a few words he stated as president of The Club, he welcomed the members and guests and asked them to be seated and enjoy the spread before them.

Rev. E. A. Powell, rector of All Saints' church, and one of the leaders in The Club, evoked a short blessing, and then for an hour the guests enjoyed the banquet.

General Smith then introduced Hon. Henry T. Bannon, who in a few words spoke of the honor that had been conferred upon him when he was asked to introduce the speaker of the evening, Rev. Dr. Gladden, of Columbus.

Mr. Bannon in introducing Dr. Gladden, said he had the pleasure of introducing a man who was known all over the state of Ohio and over the United States, and that Columbus was known by him. It was a happy introduction and amid tumultuous applause Dr. Gladden arose from his seat.

Dr. Gladden's Address

Dr. Gladden's address was undoubtedly one of the finest ever heard in the city of Portsmouth, and it will have a lasting impression on every man, woman and child who had the pleasure of hearing him.

Every word sank deep into the minds of the members of The Club, and they will no doubt go forward and upward under the guidance of his manly talk.

Dr. Gladden spoke on "Leadership." In part he said:

"What is the value of personal leadership, what is the nature of it, what is the meaning of it?

"It must be evident, of course, that there can be no such thing as leadership without a following, any more than there can be a flame without fuel.

"You find this need of leadership revealing itself in the intellectual outfit of human beings of all ages and classes, but most clearly of course, in the young. There is always a more or less chaotic and incoherent mass of conception, emotions, impulses, thoughts, wishes, volitions, seething and simmering in every human soul, but finding no clear or satisfactory expression. What is wanted is some suggestion as to the expenditure of the put-up energy. This is the need of all thoroughly vital children.

"It seems to me that in the social, the political and the religious worlds today there is an unusual need of leadership, and a strenuous demand for it. And that is what we are here to talk about tonight. The young men gathered here for the dedication of this beautiful building have been summoned to the task of leadership.

"I think that they ought to be actively enlisted in politics. It seems to me that under skillful leadership these young men of the country could be greatly used for the purification of our political system. And I would call into this service not only the voters, but young fellows of eighteen and over, who are often just as much interested in politics as those who are a little older. I would give them a chance to feel that there is something they can do for the public welfare.

"The young man power could be guided for one thing, toward the cleansing of our party machinery. The curse of this country, the shame of this country, is the use of money in elections. We have had some loathsome exhibits lately, of the extent to which this is carried.

"The only way to prevent bribery on a large scale is to limit very sharply the amount of money entrusted to the political machine. And in order that they may be, we must reduce [illegible] the amounts [illegible] for legitimate expenses.

"The trouble with our political machine is that it has become thoroughly commercialized. There are platoons and regiments of voters who hang around political headquarters, expecting to be employed by the party managers and to be paid for their services.

"Could not the young men of our towns and cities [illegible] leadership, be used for this purpose? Would it not be possible to make them see the [illegible] peril to the country involved in the use of money [illegible] and might not [illegible] league of young men [illegible] for the purpose of putting [illegible] stop?

"I have spoken of some of the possible tasks of leadership; something ought to be said about the qualifications of the leader.

"Let me say only that the qualifications of the true leader of men is that genuine religious faith which those old Hebrew heroes exemplified.

"The only leaders who can do anything for the young men of this generation are those whose faith is inseparably linked with social and civic service; those who can commune with God as consciously in a boy's camp as in a camp meeting, and who know that they are as near to Christ in a visitors' conference of the Associated Charities as in a ministers' conference in the church. The honor and responsibility of such leadership I hope for many of you.

"It scarcely need be said that the only leaders who can hope to get a large and permanent following are simple, manly, modest men with no assumption of superior sanctity, but frank and sincere and good natured. It must also be evident that they are not self-seekers, that they are not in it for what they can get out of it for themselves; that they are not afraid of work, and that they are not men who point the way and say, go, but men who lead the way and say, come.

"To the honor and responsibility of such leadership I hope that many of you, my brothers, may be called, and that you may live to see in ennobled lives and regenerated commonwealths large fruits of your labors."

Rev. Powell Optimistic

The Reverend E. A. Powell, rector of All Saints church, in whose brain the Club existed long before it became an actuality, talked on The Club, its aims and its outlook to The Times, Thursday evening. The rector was in a happy mood and was optimistic regarding everything connected with the new organization.

"The Club is the result of a meeting called some time ago by the rector of All Saints," said Rev. Powell. "So many responded to the first few meetings that it was found necessary to secure a building to house the crowd. This building was available." And here Rev. Powell paused and pointed with a satisfied expression to the entrance into which crowds of people were streaming.

"The Club is absolutely undenominational," continued Mr. Powell. "We will probably arrange for the services of a gymnastic instructor and part of our equipment is already here. The Club will be a center of civic improvement. Papers and lectures for the welfare of the citizens will be presented from time to time.

"The public health, moral and social benefit of the community will be treated along broad and sensible lines. No cards will be allowed in the Club," said Rev. Powell in closing.

BROTHERS MEET AFTER 22-YEAR SEPARATION.

One of the interesting events of the recent reunion and homecoming at Finley Chapel, says the Hamden Enterprise, was the meeting of the Fry brothers, Hamilton of McArthur; J. E. of Portsmouth, and G. W. of Richmonddale. Although living so near each other, the last two had not seen each other for twenty-two years, and failed to recognize each other. G. W.'s daughter, Georgia, who had never seen her uncle, however, recognized him by the likeness to her father. G. W. was accompanied by his wife and daughter and Hamilton by his daughter.

Miss Rachael Thomas, of West Third street, who has been quite ill, is now reported recovering.

Roth's Case Puzzle To The Physicians

One of the queerest and most puzzling cases ever coming to the attention of local physicians is that of Charles Roth, of 1121 Fourth avenue, formerly of Portsmouth, who since six o'clock Wednesday morning has spoken never a word, but lies laid in the grip of the strange malady as still as death on his bed.

Roth is a young man and for the past year has seemingly enjoyed the very best of health. He moved here with his wife from Portsmouth several weeks ago and has since been employed as a clerk in a local tobacco store. His family and relatives in Portsmouth have been notified of his trouble and he will be moved to his former home as soon as possible.

His first intelligence of the attack which has taken firm hold of his entire body and severed his power of speech, was on Tuesday night, when he was suddenly attacked by a severe pain in the forehead. This became worse as the night wore on and he found it impossible to sleep.

Towards morning the pain became so great that he was forced to walk the floor. At six o'clock he attempted to tell his wife of his suffering, but found that he could not speak. Since then he has gradually grown worse, and little at a time lost the power over other organs of the body.

Several physicians have been called in and with no exception these found the case extremely puzzling. On consultation it was decided that the disease was some kind of brain paralysis, but no one could give its exact clearing.

Roth's last words, before loosing his speech, were that he wanted to be taken to the home of his mother in Portsmouth and treated by the old family physician. The mother was notified at once and will probably arrive this evening. In that event, Roth will be taken to his old home Friday.—Huntington Advertiser.

Roth will be brought to Portsmouth, Saturday.

Favor Only One 'Phone

The directors of the board of trade, feeling that it would be to the interests of all users of telephones to have but one company to be regulated by city ordinance, so that such restrictions would be thrown around it that there would be no occasion for a monopoly taking advantage of the general public, passed at their meeting the following resolution:

Be It Resolved by the Board of Trade of the City of Portsmouth, That the continuance of the two telephone systems is detrimental to all parties interested.

Be It Further Resolved, That a consolidation would, no doubt, meet with the approval of all users of telephones, providing such restrictions can be agreed on between the city officials and the one company so that there would be no advantage taken of their patrons. Signed:

H. S. Grimes, President.
E. E. Knox, Secretary.

"MIGHTY LIVE" FOR A DEAD FERRET

A little girl rushed into Sperry's barber shop Thursday evening and excitedly informed Barber Bert Baker that his pet ferret was dying. She had noticed the animal crawl back in its box and suddenly cease breathing. Bert hurried home but meanwhile a neighboring woman had dashed a bucket of water on the ferret to revive it and the instant Bert picked it with his hand the ferret tried to bite him. "That's the funniest dead ferret I ever saw," said Bert turning to the crowd that had gathered.

New "Knight" Is A Surprise To Father

Massie lodge, K. of P., No. 115 at its regular meeting Thursday evening conferred the Knight rank upon one candidate, Otto Coriell. He kept the news of his initiation secret until last night, when he perpetrated a neat surprise upon his father, Edward C. Coriell, for many years an active and enthusiastic member of Massie lodge. A light lunch and several good talks followed the degree work. There were several visitors from Scintoville present and they responded with witty toasts.

No Date For Dedication

Nothing has been settled regarding the changed date for the dedication program of the new Second Presbyterian church. It will probably be during Thanksgiving week. Rev. Dr. Charles S. Robertson, pastor of the church, states that the report that Dr. Karl, of New York City, will not be here for the dedication of the organ, is totally untrue. "We can have him if we want him," stated Dr. Robertson.

Third Trip In 46 Years

Henry Potter, the veteran one-armed wharf collector, expects shortly to take a vacation trip, his third in 46 years.

Mr. Potter and his good wife expect to leave the first week in October for a several weeks' visit to numerous relatives in Washington county, Kansas. Since the close of the war, in which he served with the 53rd Ohio Infantry, Mr. Potter has been absent from home but twice. That was when he attended regimental reunions at Jackson and Ironton. For fifteen years he served faithfully as toll-keeper on the Chillicothe pike and has been at the wharf since 1883 and always performed his duties so satisfactory that changes in administration have never affected him.

HOT-WEATHER LIVER TROUBLE

Many people who generally enjoy good health suffer from biliousness in the summer time. Rich foods served ice-cold are difficult to digest by the majority, and often produce a chilling of the entire digestive tract. The liver thus becomes sluggish, when the condition known as biliousness results. This is often accompanied by constipation or indigestion. Serious as it may seem, however, to the unfortunate person, it is easily curable with a remedy such as the well-known Dr. Caldwell's Syrup Pepsin, which is a great laxative and tonic, and which contains ingredients that act upon the liver and stimulate it. It will relieve a hot-weather liver complaint over night and cure it lastingly in a very short time. If you have any indisposition of the stomach, liver or bowels, your first concern should be a supply of this grand remedy, which you can obtain of any druggist for 50 cents or $1.00 a bottle. There will be enough and to spare for your complaint and that of your family. A FREE TRIAL BOTTLE will be sent to those who have never used it if they send their name and address to

Moore And Conwell Hit Above 300 Mark

The Times is pleased to be able to present to its thousands of readers the complete batting averages of the players in the Ohio State league, which with the stolen bases and runs scored are given below.

Bert Blue, catcher for the Piqua team, is the leading hitter of the organization, finishing the season with the splendid average of .349, and taking part in 137 games. Emmett Reilly of the Babes, is second on the list hitting for an average of .341. He took part in 161 games and scored but 12 runs less than Blue.

"Irish" Conwell, crack third sacker for the locals and "Peggy" Moore, star twirler for the Champs, finished the season above the 300 mark, Conwell bingling at a .302 clip, while Moore punished the leather for the splendid average of .313.

When it came to scoring runs, Colligan of Marion was a host and easily led the league. He crossed the rubber 116 times as well as hitting .320.

Colligan once belonged to the Portsmouth team, but was released when Hank O'Day held the managerial reins for a few short weeks. What a great lead off man Colligan is any way.

When it came to base running, Linderbeck of Marion, was the king bee, he pilfering not less than 71 sacks. Eddie Meehan was second on the list with an even 50. With all his reputed speed, Nesser of Lima swiped but 22 sacks. In the department of base running the Champs were shy, Jimmy Edwards pilfering 24, leading the team in this respect, and he didn't try much oftener than a couple of dozen times either. Conwell was next with 21.

When it came to sacrificing, McClintock, of Lima, was the leader, the little fellow laying the ball down successfully 58 times. Lallier was second with 51. Whalen of Portsmouth, had 31 opposite his name. Al Newnham of Piqua had 35 to his credit.

The averages show many interesting things. For instance, Nesser of Lima, was the leading slugger with 30 two-baggers, 21 triples and 3 home runs to his credit. Kelley of Marion was the leading home run hitter of the league, he securing 11 four cushion swats.

Reds Drop Two

The Reds lost two games to the Cubs Thursday, dropping the first 3 to 0 and losing the afternoon 4 to 2. Coupled with the defeat of the Giants this brings the Cubs to within one game of the New Yorkers and makes the race in the National more exciting than ever. Jack Compton, late of Dayton, pitched two innings of the first game for the Reds and did fairly well, although the Cubs had him up in the air when they began dumping the ball. Scores:

Chick Long Played In All Games

Lima, O., Sept. 8.—Third Baseman Chick Long was the only local player who participated in every game this season and there were few players in the Ohio State league that had a record the equal of his. Long was always on hand at home and on the road, no matter what the nature of the weather or the character of the opposition.

Since joining the Lima squad, Long has been in every game as he finished up the season here last year without missing a contest. He joined the Beans in mid season last year, after the trade to Marion of Weller for Willoughby had resulted disastrously. Staples and several other experiments were tried before Long was secured.

This year Manager Osborne decided to make a short stop out of Long. He failed in the attempt and Long reverted to his old position at third, where he has saved many a game that would otherwise have been lost by his great work at that corner. Long is yet young, being but 22 years of age and his friends believe that he has a career of success before him on the baseball diamond.

Pitching Averages For Season

The pitching averages for the entire season of 1911 are given below and show that Hiram Grandle of the Babes tops the list, with 18 victories out of 26 games. Seneff, of Marion, is given second honors, winning 20 out of 29. However, he did not finish half the games for which he was given credit, being saved defeat by his rescuers on no less than seven occasions. Moore and Hartwig were the leading pitchers of the Champs, "Peggy's" record being 21 out of 32, while Hartwig won 19 and lost 10, a grand record for the Michigan lad when it is known that this was his first year in professional ranks. Harter did well, too, winning 16 out of 28, some of his defeats being by the narrowest kind of a margin. Ahearn won 11 and lost 12, while Lloyd won 10 and dropped 13. The records follow:

McCall The Indian Talks About Diggers

Harry McCall, better known as Big Chief, the Indian ball player with Marion this season and who also played first base for Chillicothe for about a week, was in the city last night en route to his home, says the Advertiser. McCall lives on a farm in Highland county, three miles from where Hiram Grandle lives and he came here expecting to go home with Hiram, but found he had already left.

McCall said last night that the Marion players all left that city with about $400 each due them, but all will get their money. The sale of Cooper for $1500 and Goulait for $300 which money had not yet been received, will more than pay off the players. McCall was not certain whether Marion would have a ball team or not next season.

"If we had had the Chillicothe pitching staff," said McCall, "we would have been so far in front, that no one ever would have caught us. We only had one pitcher on the team and that was Cooper. The other fellows all lost heart when the team was a run or two behind and would quit fighting. We had a good ball club and should have done better."

McCall says Cooper is a country boy and comes from Athens county, not very far from where McGraynor lives. "The woods are full of bushers like him," said McCall. "All you have to do is to pick 'em up. That's where you find the marvels. They have got it all over these city chaps. I think Cooper will be a wonder in time."

M'CALLISTER TO SUCCEED LEE FOHL

Akron, O., Sept. 8.—Manager Fohl may be forced to desert the ranks of the Champs before the season has closed next Sunday. Columbus is in a bad way for catchers and according to information received today he will be called to that city.

In the event of his going Jack McAllister will have charge of the team until the season closes. This will cause a switch in the line-up of the team. McKiff will return to third base while Henie Mauger will go to right field and O'Connell will go back to short.

The boys are feeling good because of the fact that they grabbed off another pennant. They are in high glee over the breaking of a record which has never been broken before in any league.

Capturing a pennant four times in succession is no small feat and it gives some idea of the class of teams which has represented this city. Every one has been of a high class order and so far superior to any others that there has been nothing to it at all.

OH, YOU IRISH KIDS

Tom O'Brien, leading pitcher of the Western league, is the Marty O'Toole of Tip O'Neill's organization.

O'Brien is the idol of the Denver fans. He goes to the Boston Americans this fall, but his fame will remain while the snow covers Pike's Peak and the boys today tell their grandchildren of the days when O'Brien pitched for Denver.

Like O'Toole, the Denver star is a pitcher of damp deceivers. But he has other things in his repertoire, such as speed, a curve ball and a change of pace, and to round off his equipment, he possesses a fertile brain.

O'Brien is wanted in Boston right now, but the chances are he will not leave the Grizzlies until the pennant is won beyond all doubt. He is too rare a bird to escape while his services may be required.

Hunter Is Indian

Pittsburg, Pa., Sept. 8.—First Baseman Fred Hunter, for whom the Pittsburg club paid an equivalent of $10,000 in cash and players to the Kansas City club, has been sold to Indianapolis in the American Association. Two months ago it was a merry contest between Hunter and Jack Flynn, now with St. Paul, for the permanent job at the Pirate first sack. Both were highly valued. Now they are with the league from which they graduated into the majors.

Hunter proved a fast man on the bases and a glittering fielder for Pittsburg, but his hitting was not consistent enough to suit Fred Clarke. The big fellow broke up several games early in the season by timely swatches, but later there is said to have developed a weakness for curve balls. This the Pittsburg club denies, saying that Hunter's failures were due mainly to a bad streak of luck with the bat.

There's a difference, to be sure, between starting a rival major league and buying a peanut stand.

CHILLY IN FAVOR OF PROPOSED LEAGUE

Chillicothe, O., Sept. 8. With the announcement of the arranging of the series with Maysville comes the story from Portsmouth that a movement has been set on foot there to form a four-city league, composed of Huntington, Maysville, Portsmouth, and this city. The plan is to have the pick of Ohio State, Blue Grass and Mountain league stars represent these cities and play a schedule of 18 games beginning September 15 and ending October 5. The umpires if the plan goes through will be Pastorius and Truby.

Locally, nothing is known of the movement, but the idea, if carried to a successful conclusion, is a good one. Fine weather is being enjoyed and the fans of this city are already fretty because the good old days of baseball have closed for the year. Interest would also be provided in that fans of this city and Portsmouth would be able to form an idea of the class of the Mountain State and Blue Grass leaguers while the same would be the case with Maysville and Huntington fans in regard to the Ohio State.

Reilly May Manage Babes

Chillicothe, O., Sept. 8. Emmitt Reilly, the catcher, left for his home in Columbus today, all decked out with new clothes, hat and shoes. He proposes to go to Louisville for a few days to visit friends on the team in that city and after that will spend the winter at his home in the Capital City. Emmitt is a candidate for manager of the Babes next year, provided he is not drafted.

TWO MEN ARE KILLED BY TRAIN ON N. & W.

Marion Barker, aged 22, of Eldridge, Elliott county, Ky., and a man named Hicks, about fifty years old, of Maytown, Ky., were instantly killed by N. & W. passenger train No. 32, two miles above Waverly, Thursday evening.

The men had been standing in the middle of the track. Engineer Shaver saw them and blew the whistle, but the men did not move, and the next instant were struck down and ground to pieces.

There was nothing on either body to lead to their identity, and it was not until Friday morning that a chance identification was made. Andrew and Elliott Atkins, two men who were Barker's companions, were walking towards Waverly when they came across a hat that had been cut in two by a train. Their fears became aroused, and when they reached Waverly began making inquiries, only to find that the two bodies were at A. Grèves' undertaking establishment. A few moments later they identified the bodies.

They and Barker had met Hicks in Portsmouth Thursday morning. All were bound for the upper valley to seek employment at corn-cutting. They walked as far as Wakefield, where they caught a freight train. They alighted two miles above Waverly and made for an old shed, where they expected to spend the night. Hicks and Barker felt hungry and started towards Waverly after a lunch. It is thought they stepped out of the way of a freight train onto the main track and, because of the curve at that point, failed to see the passenger train approaching.

Squire Philip Gableman held an inquest Friday and rendered a verdict of accidental death. It was said Hicks had a brother and two nephews employed with the Portsmouth Street Railway company, but Supt. H. H. Higgins says there is no such name on the company's pay-roll.

Church Teams Are To Play

CASCARETS FOR A SICK, SOUR STOMACH

Gently but thoroughly cleanse and regulate your Stomach, Liver and Bowels while you sleep.

That awful sourness, belching of acid and foul gases; that pain in the pit of the stomach, the heartburn, nervousness, nausea, bloating after eating, feeling of fullness, dizziness and sick headache, means indigestion; a disordered stomach which cannot be regulated until you remove the cause. It isn't your stomach's fault. Your stomach is as good as any.

Try Cascarets; they cure indigestion, because they immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the decomposed waste matter and poison from the intestines and bowels. Then your stomach trouble is ended forever. A Cascaret tonight will straighten you out by morning. A 10-cent box from any drug store will keep your entire family feeling good for months. Don't forget the children—their little insides need a good, gentle cleansing, too.

Luther's moving vans. He claimed to have just arrived on a freight train and that he was bound for West Virginia to visit a brother. He was released from the city prison Friday.

Hewitt Is Acquitted

Ralph Hewitt had no trouble convincing Chief McCarty Thursday night of his innocence of having slandered Mrs. Pugh, wife of a fellow mill man. Hewitt said his own wife herself had started the story attributed to him, doing so out of mere jealousy. The case against Hewitt was dropped and Mrs. Pugh was also vindicated.

Tom Moore after first denying he had been near the Fisher & Strelich pharmacy Sunday night, changed his plea to guilty to pointing firearms, Friday. He was also charged with spending his time in idleness and refused to do anything whatever toward supporting his mother.

The lad was given a chance to explain his conduct and then on his promise to go to work, the court allowed him to go under a suspended sentence to the Lancaster farm.

The Following Letters Are Published to Show the Voters the Truth, and That the Facts as To Certain Correspondence May Be Shown

Portsmouth, Ohio. Sept. 5, 1911.

HON. FRANK L. SIKES,
(Manager Wet Organization)
Scioto ville, Ohio.

Dear Sir:—

Realizing the fact that Scioto County will witness a campaign this fall in an effort to make the county vote "Wet"; and realizing the fact that your Organization has some statements which you claim are good and sufficient reasons why the county should go back to a "Saloon" county, we, the undersigned, challenge you and your Organization to a series of three joint debates, each side to use two LOCAL speakers. One of the debates to be held at the "Billy" Sunday Tabernacle and the other two to be held at any places in Scioto County you may name.

We suggest that the question for debate be: Resolved, That it is to the best interest of the people in Scioto County that the county remain "Dry."

Minor arrangements, such as dates, length of time each speaker is to use, etc., to be arranged later.

Yours Truly,

SCIOTO COUNTY LOCAL OPTION LEAGUE.
John T. Breece, President.

Scioto ville, O., Sept. 6, 1911.

The Scioto Co. Local Option League,
Portsmouth, Ohio.

Dear Sirs:—I am in receipt of a communication addressed to me as "Manager Wet Organization." I know of no such organization, neither do I have knowledge that I am "Manager" of a "Wet Organization," or an organization of any other kind.

Your communication therefore is kindly consigned to my waste basket. Any communications received by me either personally or in any official capacity held by me will receive a most careful reply, and if necessary that it be submitted to others, I shall take pleasure in presenting same to the proper authorities. Any communication you may send to The Business Men's League of Scioto County, Ohio, as to debates, will undoubtedly receive an early and most courteous reply.

Regretting very much that you have given occasion for this communication, I remain,

Yours very truly,

FRANK L. SIKES.

The above letters show that one is an answer to the other. Mr. Sikes says that he received the first of the above letters at Scioto ville on Wednesday evening at 6 p. m. and that the same evening he mailed the second letter as his reply. We are not advising Mr. Sikes as to his private correspondence, as he seems fully capable of attending to that without our assistance.

We have received no communication from The Scioto County Local Option League. Should we receive a letter from them, we shall take pleasure in replying to same. **We have received no reply to our CHALLENGE, handed them on Wednesday p. m. and published in the Portsmouth Times of same date. We await their answer.**

THE BUSINESS MEN'S LEAGUE OF SCIOTO CO.,

One Of The Heirs To Millions Of Money

Rev. J. C. Campbell and wife, who live in Whetstone, Greenup county, have gone to Texas, where they will spend the remainder of their days with a son.

Mr. Campbell, who is now well on towards eighty, has been preaching for over half a century and is known all over the state of Kentucky. He is the father of Rev. J. R. Campbell, pastor of the New Boston Christian church. He is one of the parties interested in the claim which the Sevier heirs have against the government and will come in for a few millions, if the claim be paid.

It was his grandfather, John Sevier, governor of North Carolina and Tennessee, who in revolutionary times loaned the government $8,494,594, at 6 1-2 per cent compound interest. Not a cent of principal or interest has ever been paid and the government acknowledges it owes a right tidy sum, but is slow, as governments always are, about these things, in paying it.

Big Crowd At Pike Fair

All previous attendance records were smashed at the Waverly fair Thursday, fully 7,000 persons attending.

The rain of the day before put the pikes in good shape and automobile parties came from all surrounding cities and towns in great numbers.

Quite a number of Portsmouth persons attended the fair, and Billy Miles' mare, Hattie B., carried off the racing honors of the day, when she won the free-for-all. She paced the first two heats in 2:10 1-2 and the third in 2:12 1-2, thereby lowering the track record. The announcement that Col. John W. Barger, well known Pike county statesman, owned the sire and dam and sold Hattie B. to Mr. Miles a few years ago for $90, and that Miles has been campaigning her with great success ever since was greeted with tumultuous applause.

Johnny Get Your Gun

The approach of the hunting season brings many inquiries as to the open season for various game. The squirrel season is first and it opens on September 15th, and runs until October 2nd, both days included. No hunter is permitted to kill more than five squirrels in one day's shooting.

The Way Of A Woman

James Manning, who is in jail for non-support, is quite ill with an old ailment. His wife learning of his illness promptly called up police headquarters to verify the report and promised to visit her husband.

CAN'T FIND BROTHER

Efforts to locate the relatives of E. Forcum, who was electrocuted Thursday in Atchinson, Kansas, have so far proved unsuccessful. The dead man was in the employ of the Western Union Telegraph Company, who are lending every effort to locate his relatives. It was supposed that his brother, G. W. Forcum, resided here, but no trace of him can be found.

Candidates Must Put In Expense Accounts

Now is the season when the candidates in the recent primary election must "sit up and take notice." The new order of things is brought about by what is known as the "corrupt practice act."

The provisions of the law require that within ten days after a primary or election each candidate or his committee must file a detailed statement of expenditures, together with a lot of other data with the deputy state supervisors of elections.

Unless a candidate does this the board cannot legally issue a certificate of nomination or election.

The statute also provides a big fine and imprisonment for violations of any of the other and numerous involved sections.

In view of all this, it behooves candidates to hurry up and certify in just what actual cash they had to dig up to be nominated last Tuesday—or be defeated.

The same dose to be repeated after the municipal and township election on November 7.

Says Crops Are Fine

J. W. Stout, of West Sixth street, has returned from a week's visit spent in Decalb and Allen counties, Indiana. Mr. Stout says the corn crop is in fine shape and that peaches, pears and all kinds of fine fruit are going to waste for want of a market.

CHANGE DATE OF BATTERY L MEET

HAS SUED THE C. & O.

Had A Tire Preservative

Ivan Riley, proprietor of Riley's garage, has started his new tire preservative process to working and thinks it a great success. The process was recently invented by Riley after three years' work, and he expects to place it on the market.

Trouble Over Hare.

Mrs. Jos. Reese complained to the police that Mrs. Dixon of Vinton and High streets, had seized and held a Belgian hare belonging to her young son. She refused to give up the hare and is said to have refused to feed or water it. Chief McCarty sent word she would have to give the hare proper care.

Indecent Language.

William Strope, a barber, was taken to task by the police Friday for indecent language complained of by residents of Fifteenth and Chillicothe streets.

WIFE GOT GIRLS WHO FLIRT WITH HER HUBBY

The wife of a certain moulder Thursday evening captured two young girls who had been flirting with her husband and marched them to police headquarters.

Quite a scene followed there, the girls bursting into sobs as they acknowledged having been out with the married man. He had time and again taken them to the nickle shows but they were unaware he was married.

When the wronged wife related how she had been mistreated in different ways by her husband Mayor Searcy's ire became aroused. He proposed sending the man to the workhouse for an extended period but the wife broke down and crying bitterly began pleading for him.

The man was finally sent for and promised never again to attempt any "mashing." He and wife kissed and made up and the whole affair was happily adjusted on condition that all names be withheld from the newspapers.

EASILY DECIDED

This Question Should be Answered Easily by Portsmouth People.

Which is wiser—to have confidence in the opinions of your fellow citizens, of people you know, or depend on statements made by utter strangers residing in faraway places? Read the following:

John H. Swearingen, [illegible] West Seventh street, Portsmouth, Ohio, says: "About six years ago a heavy ladder fell across my back and at that time my kidneys were injured. I began to suffer from a constant pain across the small of my back and my work was often neglected on this account. My back grew as weak as a child's and my bladder also became affected. The kidney secretions passed too frequently, especially at night, and contained much sediment. Nothing helped me until I commenced taking Doan's Kidney Pills. They effected a complete cure and my back is now strong and free from pain."

The above statement was given in February, 1908, and when Mr. Swearingen was interviewed on July 2, 1909, he said: "There has been no return attack of kidney complaint in my case. Doan's Kidney Pills cured me. I shall always recommend this remedy when I have the opportunity."
